WORK EXPERIENCES

SDE | Internship Jun 2025 - Aug 2025
Department of Design, IIT Delhi On-site

- **Developed Toddler**, a game-based application that enhances language learning for children with **intellectual disabilities**.
- **Implemented** advanced metrics collection from the application to gain insights and **enhance performance**.
- **Enhanced** learning outcomes by 50% for children with intellectual disabilities.

Technologies / Skills Used : Flutter, Firebase Auth, Firestore Database, Provider, Go Router, ImageKit, Android Studio

Research Intern | Internship Jun 2024 - Jul 2024
CraftTatva Hybrid

- **Analyzed** competitor platforms' tech stacks and UI/UX; **recommended enhancements** to improve user engagement.
- Prepared a comprehensive report identifying current **user experience issues** and potential solutions.

Technologies / Skills Used : Research, Google Scholar

PROJECTS

Blackout | 🌐 Github Dec 2023 - Present

- **Created** a true black OLED theme for Spotify to reduce power consumption on OLED displays.
- **Merged** into the official Spicetify theme repository and published on the marketplace.

Technologies / Tools Used : CSS, Spicetify

BLF Inventory Management App | 🌐 Github Jan 2026 - Apr 2026

- **Developed** an Inventory Management System using **Next.js, PostgreSQL, and FastAPI** for society data.
- **Implemented** RBAC, custom forms, and a clean API architecture; deployed the full stack on Railway.

Technologies / Tools Used : Next.js, React, PostgreSQL, FastAPI, Railway

cutr | 🌐 Github Jan 2026 - Jan 2026

- **Built** a URL shortener using **Next.js** with MongoDB storage, supporting custom short URLs and fast redirects.
- **Implemented** collision handling and a pixelated Tailwind CSS UI; deployed the application on Vercel.

Technologies / Tools Used : Next.js, React, MongoDB, Tailwind CSS, Vercel

Clann | 🌐 Github Aug 2025 - Sep 2025

- **Developed** an Android class management application using **Flutter** with modern UI patterns and clean architecture.
- **Integrated** Supabase for DB and Authentication for secure user login.

Technologies / Tools Used : Flutter, Supabase

Recipify | 🌐 Github Apr 2025 - May 2025

- **Developed** an Android recipe application using **Jetpack Compose** with modern UI patterns and clean architecture.
- **Integrated** Spoonacular API for recipe search and Firebase Authentication for secure user login.

Technologies / Tools Used : Kotlin, Jetpack Compose, Dagger Hilt, Firebase, Spoonacular API

Spendly | 🌐 Github Jan 2025 - Mar 2025

- **Built** an automated SMS-based UPI expense tracking application with spending analytics and data visualization.
- **Recognized** with 1st place at Geekathon 2024 and 3rd place at Ideathon 2025.

Technologies / Tools Used : Flutter, Dart, Firebase, SyncFusion, Kotlin

SKILLS

Databases :	PostgreSQL
Frameworks & Libraries :	Flutter, Flask, Jetpack Compose, Node.js, React.js, Express.js, Next.js, Tailwind CSS
Programming Languages :	C, Java, Python, Dart, SQL, Kotlin, JavaScript
Soft Skills :	Teaching/Explaining Skills, Curiosity, Learning Mindset, Emotional Intelligence, Collaboration Skills
Tools & Platforms :	FileZilla, Android Studio, Git, Firebase, Figma, MongoDB, Docker

EDUCATIONS

K.R. Mangalam University Aug 2023 - Jul 2027
B.Tech in Computer Science CGPA : 8.33

- **B.Tech in Computer Science**, K.R. Mangalam University, **CGPA: 8.33**
