## PROFESSIONAL OBJECTIVE

---

Computer Science student and Android Developer proficient in building native and cross-platform applications using Kotlin (Jetpack Compose) and Dart (Flutter). Focused on clean architecture and scalable code to build high-performance applications in collaborative environments.

## EDUCATION

---

### K.R. Mangalam University

B.Tech in Computer Science

Aug 2023 – Jul 2027

- CGPA: 8.33

## TECHNICAL SKILLS

---

**Languages:** Kotlin, Dart, Java, SQL, Python, C, JavaScript

**Frameworks & Toolkits:** Jetpack Compose, Flutter, Android SDK, SyncFusion UI

**Architecture & Tools:** MVVM, Clean Architecture, Provider, Dagger Hilt, Android Studio, Git, Firebase, Supabase, Docker

## EXPERIENCE

---

### SDE Intern

Jun – Aug 2025

Department of Design, IIT

Delhi

- Developed Toddle, a specialized Android gaming application to enhance language learning for children with intellectual disabilities.
- Utilized Flutter, Provider state management, and Go Router for view navigation.
- Integrated Firebase Authentication, Firestore Database, and ImageKit for secure backend storage and asset delivery.

### Research Intern

Jun – Jul 2024

CraftTatva

- Analyze competing platforms' tech stack and UI/UX, and recommend improvements.

## PROJECTS

---

### Spendly | Flutter, Dart, SyncFusion, Firebase, Kotlin

Jan – Mar 2025

- Built an Android application to track expenses by parsing local UPI SMS alerts.
- Designed spending analytics dashboards using SyncFusion UI components for data visualization.
- Awarded 1st place at Geekathon 2024 and 3rd place at Ideathon 2025.

### Clann | Flutter, Dart, Supabase DB, Go Router

Aug – Sept 2025

- Developed an Android class management app with dedicated administrative flows for Class Representatives and dashboards for students.
- Integrated Supabase client SDK for database syncing and secure role-based authentications.

### Recipify | Kotlin, Jetpack Compose, Dagger Hilt, Retrofit, Spoonacular API

Apr – May 2025

- Built a native Android recipe discovery application using Jetpack Compose following MVVM Clean Architecture.
- Implemented dependency injection with Dagger Hilt and managed network networking with Retrofit to fetch external APIs.

## SOFT SKILLS

---

Technical Communication, High Curiosity, Continuous Learning Mindset, Professional Collaboration, Structural Problem Solving
